

# Gospel to Asia Ministries International Inc. & Grace Charity Foundation

A local Church Ministry of Grace Baptist Temple, Visakhapatnam, A.P., India

**A NATIONAL WORKER** is a man or woman whose life is dedicated to reaching the people of his or her own nationality with the gospel of his or her own nationality with the gospel of Jesus Christ. They are an integral part of each ministry of GAMI.

## BUT WHY USE NATIONAL WORKERS ?

National workers are already familiar with the culture in which they are ministering. so, unlike foreign missionaries, there are few obstacles for them to overcome. They already know the Language so they can begin to minister without spending time at language school.

To the local people, national workers are one of them. They do not come from foreign lands and they don't represent a strange religion. They are much more readily accepted by the people than a foreigner.

A national worker can be supported at a fraction of the cost of sending a foreign missionary. But for just \$100 a month, you can have a part in the ministry of a national worker to keep him on the field.

## WHAT DO NATIONAL WORKERS DO ?

These faithful servants labor in children's ministry, youth camps, radio ministry, leprosy ministry, evangelism, discipleship, and church planting.

They are committed to Gospel to Asia Mission: To give everyone on earth a chance to hear and respond to a clear presentation of the gospel of Jesus Christ.

Most national workers are stationed in remote villages where there are few Christians, and where they receive little in the way of encouragement or help in their ministry. These workers are often responsible for sharing the gospel in several villages because the Christian witness is so sparse. Others, minister in larger towns, where opposition from the state religion can be just as intense as hostility of the tribal religions in the villages.

## YOUR PART IN THIS MINISTRY

Gospel to Asia invites you to become the sponsor of a national worker. It costs only a \$ 100 month for you to have a vital role of support and encouragement, enabling a national worker to continue in his ministry. Periodically you will receive updates so that you can pray about the specific details involved in the ministry that you are supporting.

## National Workers can be found...

- ... riding a bicycle from village to village as they share the gospel.
- ... using a drum to call crowds to a meeting.
- ... rowing in boat to a church building on the edge of an island
- ... going where no one else can.

## They are committed to GAMI's mission :

*To give everyone on earth a chance to hear and respond to a clear presentation of the gospel of Jesus Christ*

## OUR MISSION:

### THE WORLD

To give every person on earth at least one chance to hear and respond to a clear presentation of the gospel.

### THE WHEAT

To express the compassion of Christ as the Lord gives opportunity and means to do so..

### THE WORD

To serve the pastor and his Local Church, and to inform, challenge, and encourage God's people in their world-wide responsibility.

**Gospel to Asia Ministries is all about ministry synergism. There is Power in working Together.**

### SYNERGISM IN NATURE

Synergism occurs when the output is greater than the sum of the inputs. A single draft horse can pull a load of four tons. Two draft horses yoked together can pull a load of 22 tons. Solomon's admonition in Ecclesiastics 4:9-12 is true in nature: two are better than one. Two draft horses, working together, can pull almost three times as much as they, combined, could pull individually.

### THE NEED FOR PARTNERSHIP

India is another difficult mission field. National Christian leaders struggle to preach the gospel in the midst of great opposition. When American mission and church leaders allow themselves and their congregations to be "yoked together," like draft horses, with fundamental leaders such as Dr. Paul Victor, amazing results are possible.

For many years American missionaries have carried out their overseas ministries working on their own. Pulling four tons. At the same time, national Christian, called by God to minister to their own people or to peoples nearby, have carried out their ministries, working on their own. Pulling four tons. It is time for the American missionary agency and its missionaries to clasp hands with trustworthy national leaders and work together. Pulling 22 tons.

## WHICH DEFINITION APPLIES ?

The dictionary gives two definitions for synergism. Which definition applies to missions? Actually, they both apply.

1. the simultaneous action of separate agencies which, together, have greater total effect than the sum of their individual effects. GAMI has proven over and over again that partnerships are synergistic - that much more can be accomplished by Americans and nationals working together than by Americans and nationals working separately.

2. the combined or correlated action of different organs or parts of the body, as of muscles working together. Members of the Body of Christ, likened in Scripture to the members of the physical body, must work together to be effective. There is great power in Americans sharing God-given resources with Indians. The body of Christ is strongest when its members work in partnership.

Many outstanding national leaders desire to Clasp hands with us. Please join GAMI in partnering with them.

*There is power  
in working  
together!*
